About Doors Plus

The Home of Quality Doors

Since 1989, Doors Plus has been transforming homes across Australia with innovative and elegant, custom made solutions. Our unique collections of internal and external doors combine stylish designs, from the traditional to the contemporary, with the highest quality of craftsmanship. With a vast range of styles, finish and glass options to choose from, we'll help you find just the right doors for your space, lifestyle and budget, and uplift your home from the inside out.

From the moment you visit a Doors Plus showroom to the final fit, our friendly and qualified team will support you with a personal service, expert advice, and professional installation.

At Doors Plus, we can measure and quote for free, and we can deliver and install your doors – leave it to us, No Fuss!

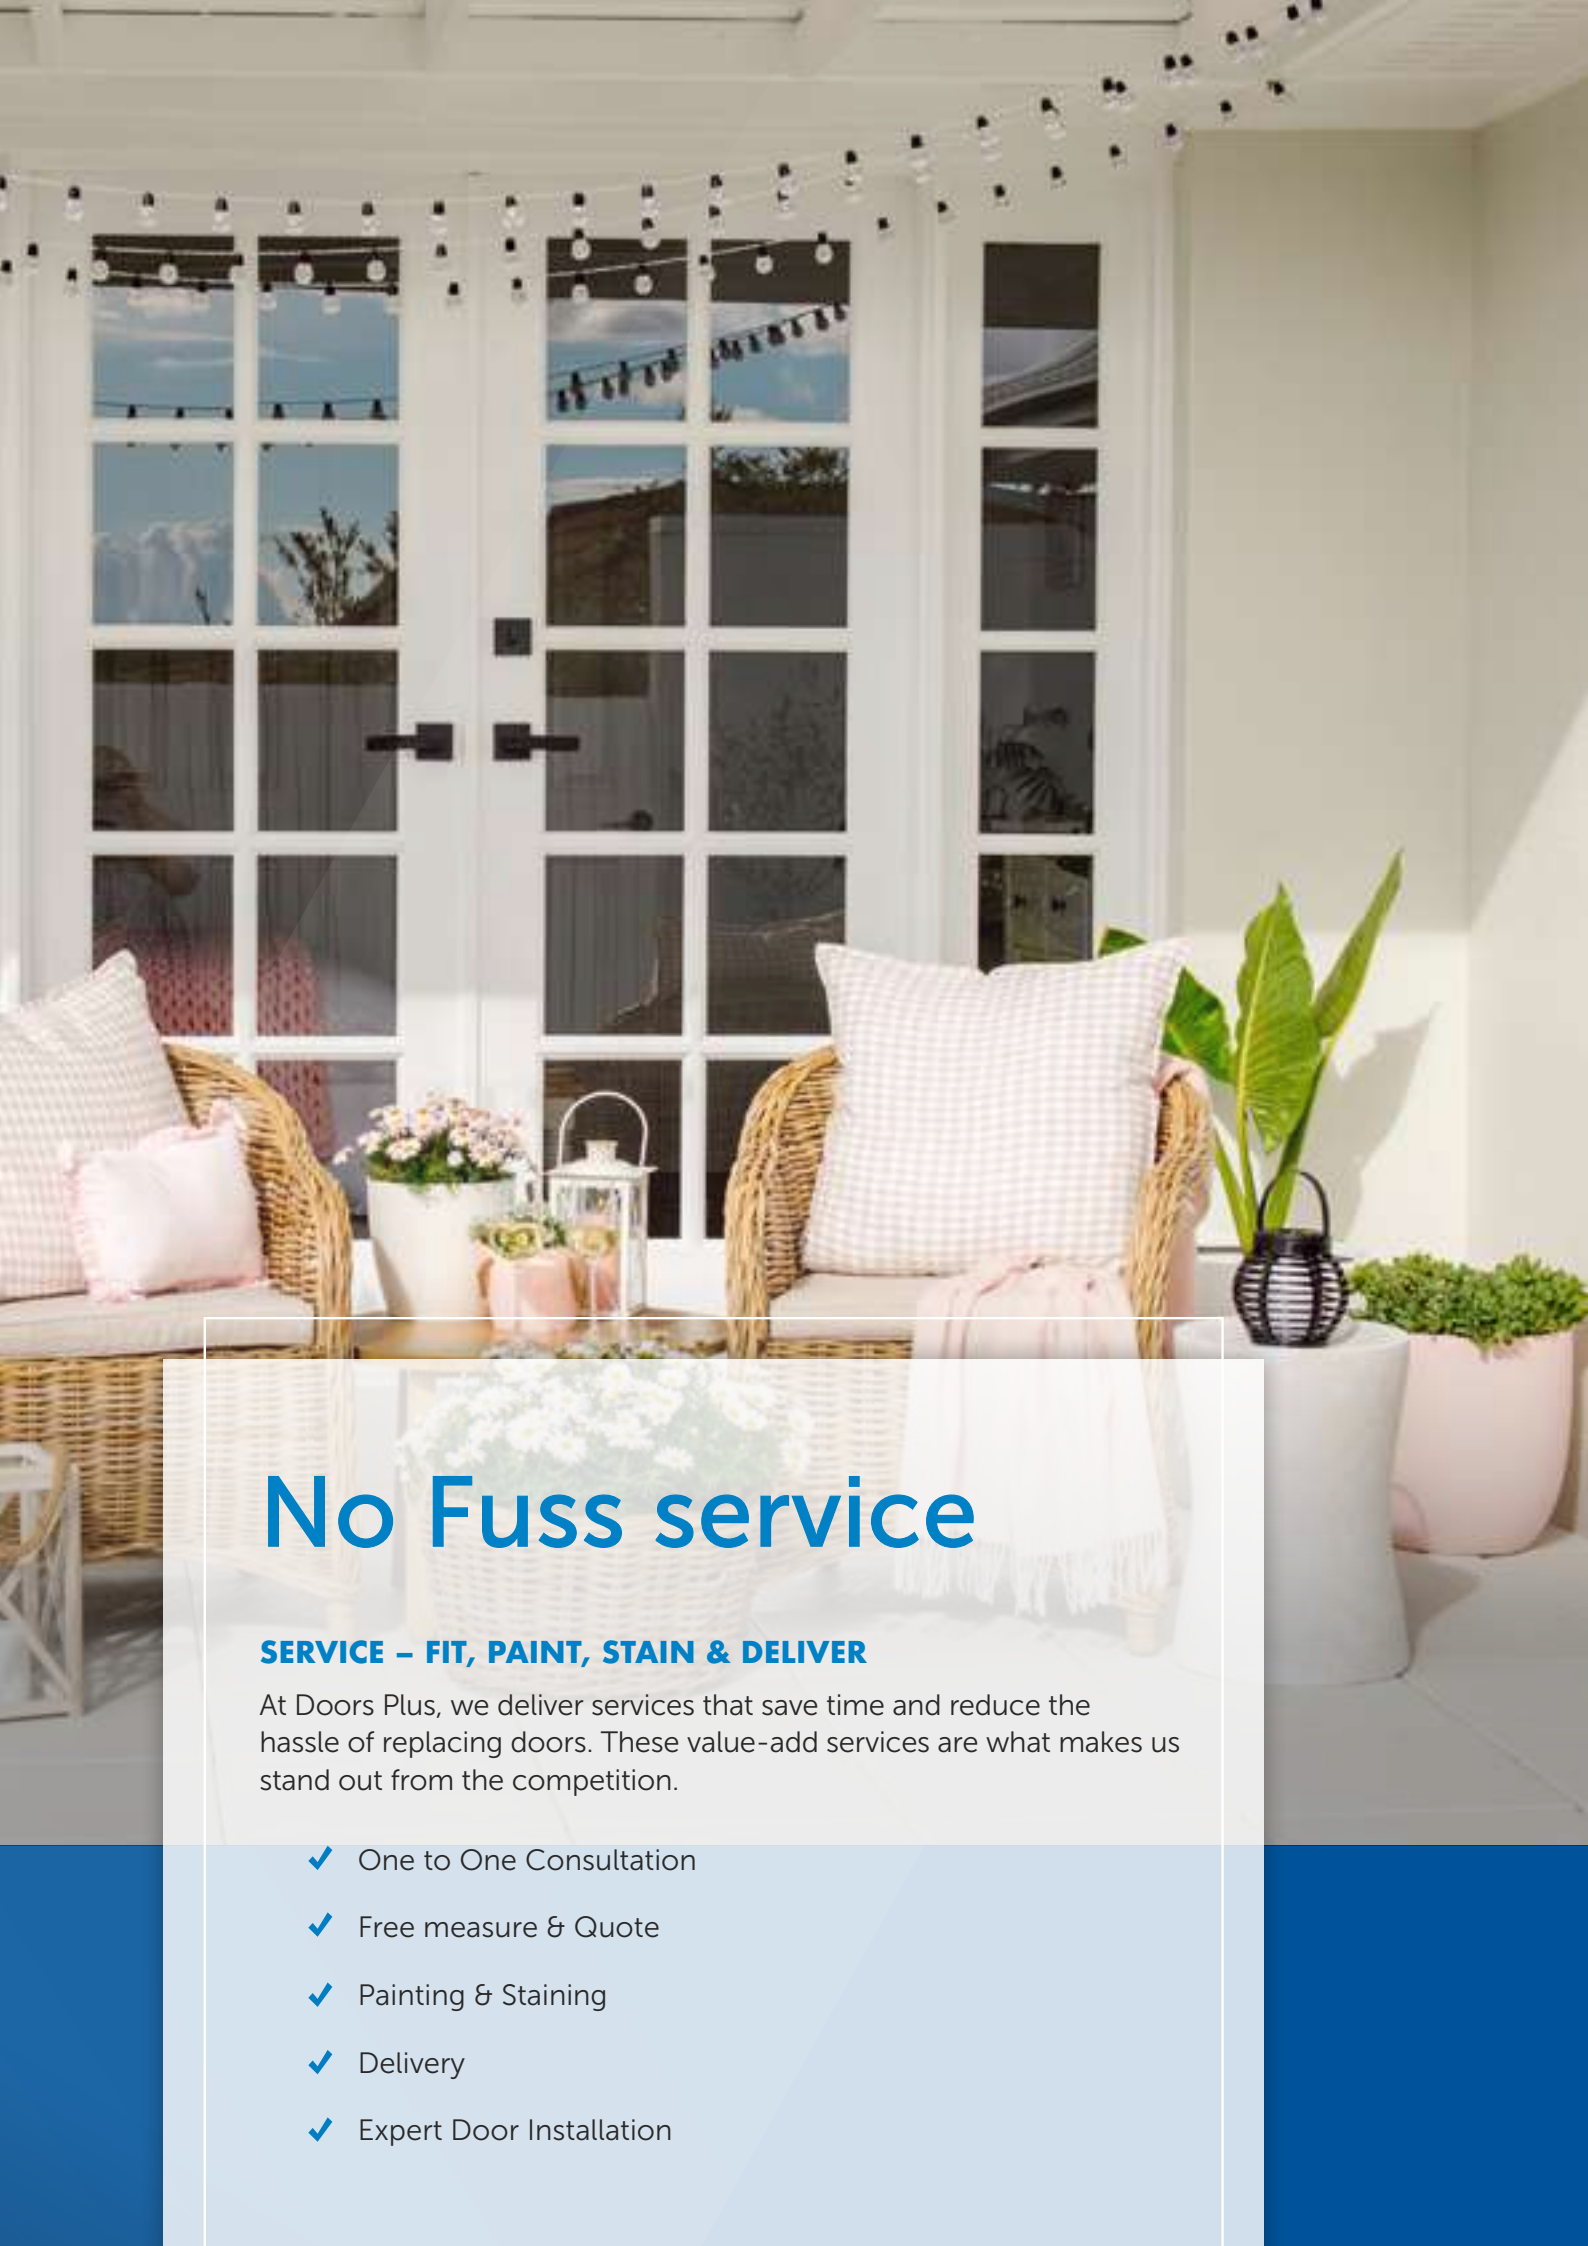

Solid Pacific Ash Timber Doors

All Doors Plus timber products are made from 100% solid Pacific Ash timber from a renewable source. Our timber doors are strong and long lasting and can be re-sanded as required, unlike doors that have a veneer less than 3mm thick.

All of the timber is quarter sawn, not face cut. Although this is a more expensive process, the advantage is an outcome that makes the wood more stable and gives it a straighter grain. Quarter sawn wood also has much less tendency to cup, bend and warp.

Doors Plus ... No Fuss

No Fuss service

SERVICE – FIT, PAINT, STAIN & DELIVER

At Doors Plus, we deliver services that save time and reduce the hassle of replacing doors. These value-add services are what makes us stand out from the competition.

Innovative Products & Quality Materials

INSULSAFE™

InsulSafe
Insulation • Glazing • Windows

Decorative panels of glass and zinc, lead or brass are sealed in a double glazed unit in a range of traditional and modern designs to suit the look and feel of your home. The triple layer of SafeGlass™ brings the combined benefits of safety, style and insulation.

SAFEGGLASS™

Exclusive to Doors Plus, SafeGlass™ is up to 500% stronger than ordinary glass. If broken under extreme force, it will break into small granules to prevent serious injury as opposed to normal glass which breaks into shards and slivers. SafeGlass™ was devised to provide protection and safety for your family and introduced across the entire range in many fashionable styles, Australia wide.

PAINT 'N' PEEL™

PAINT 'N' PEEL™

Nobody likes painting around the glass panels in a door. Paint 'n' Peel™ was developed to make painting and staining doors easy. It's a film we apply to the glass panels before your door leaves our factory. Forget the painstaking job of masking the glass before painting or staining. All you have to do is paint, then peel.

Plus Products

Our range of elegant and innovative Plus products has been introduced to help update and enhance other areas around your home, and to complement our door solutions, for a complete home renovation without the fuss!

WAINSCOTING FOR ADDING CHARACTER & INTEREST

Wainscoting is a simple yet effective way of adding interest and character to flat walls, and introducing a stylish feature into any area of the home. Originally a practical solution for reinforcing and protecting the lower portions of the walls in high traffic areas of the home, wainscoting is becoming increasingly popular as a style choice in many Australian properties. Whether you want to enhance your classic and traditional home decor or add a chic sense of style to a modern interior, our quality wainscoting will instantly transform the look and feel of plain walls.

BEAUTIFUL & PRACTICAL SHUTTERS

Plantation shutters are fast becoming the most popular window furnishing in Australian homes. Plantation shutters fit comfortably in just about any interior design scheme.

Both beautiful and practical, plantation shutters are installed over existing windows, they are available as single or double hinged panels, or a bi-fold configuration, where the panel fold back to one side giving full access to the window. You have the options to split the louvres into sections that can be adjusted independently. Giving your customers the flexibility to keep the lower sections closed for privacy while opening the top louvres to let in more light.

PREMIUM MAILBOXES

Your front door might be the hero of your home, but your letter-box is the very first thing guests see. The HomeStead Plus Premium Heavy Duty Freestanding Letterbox by Doors Plus extends the elegance of your entryway right to the curb, creating a cohesive and sophisticated streetscape that sets your property apart.

CANOPIES

A natural choice for homeowners looking for added protection over an entryway. The Doors Plus Canopy provides UV and basic weather protection. The canopy is specifically designed to resist rusting and panels can be paired to provide additional coverage.

PET DOORS

At Doors Plus, we understand that your pet door isn't just an opening – it's a gateway your pet will use countless times. That's why we've developed our own range of Doors Plus Pet Doors, designed to withstand the wear and tear of enthusiastic pets while blending seamlessly with your door.

EXTERNAL DOORS

From statement solid timber front doors to our innovative Guardian 2-in-1 entry & screen door solution, our collection of external doors brings stylish design together with quality materials and innovative engineering, for entry doors that will keep your home and family secure. Your external doors have a key role to play in how your house looks to the outside world, but they are also your first line of defence against the elements or uninvited guests. A stylish front door can transform the exterior of your home and seriously boost your curb appeal, and any side or back entrances need to be equally secure and durable.

INTERNAL DOORS

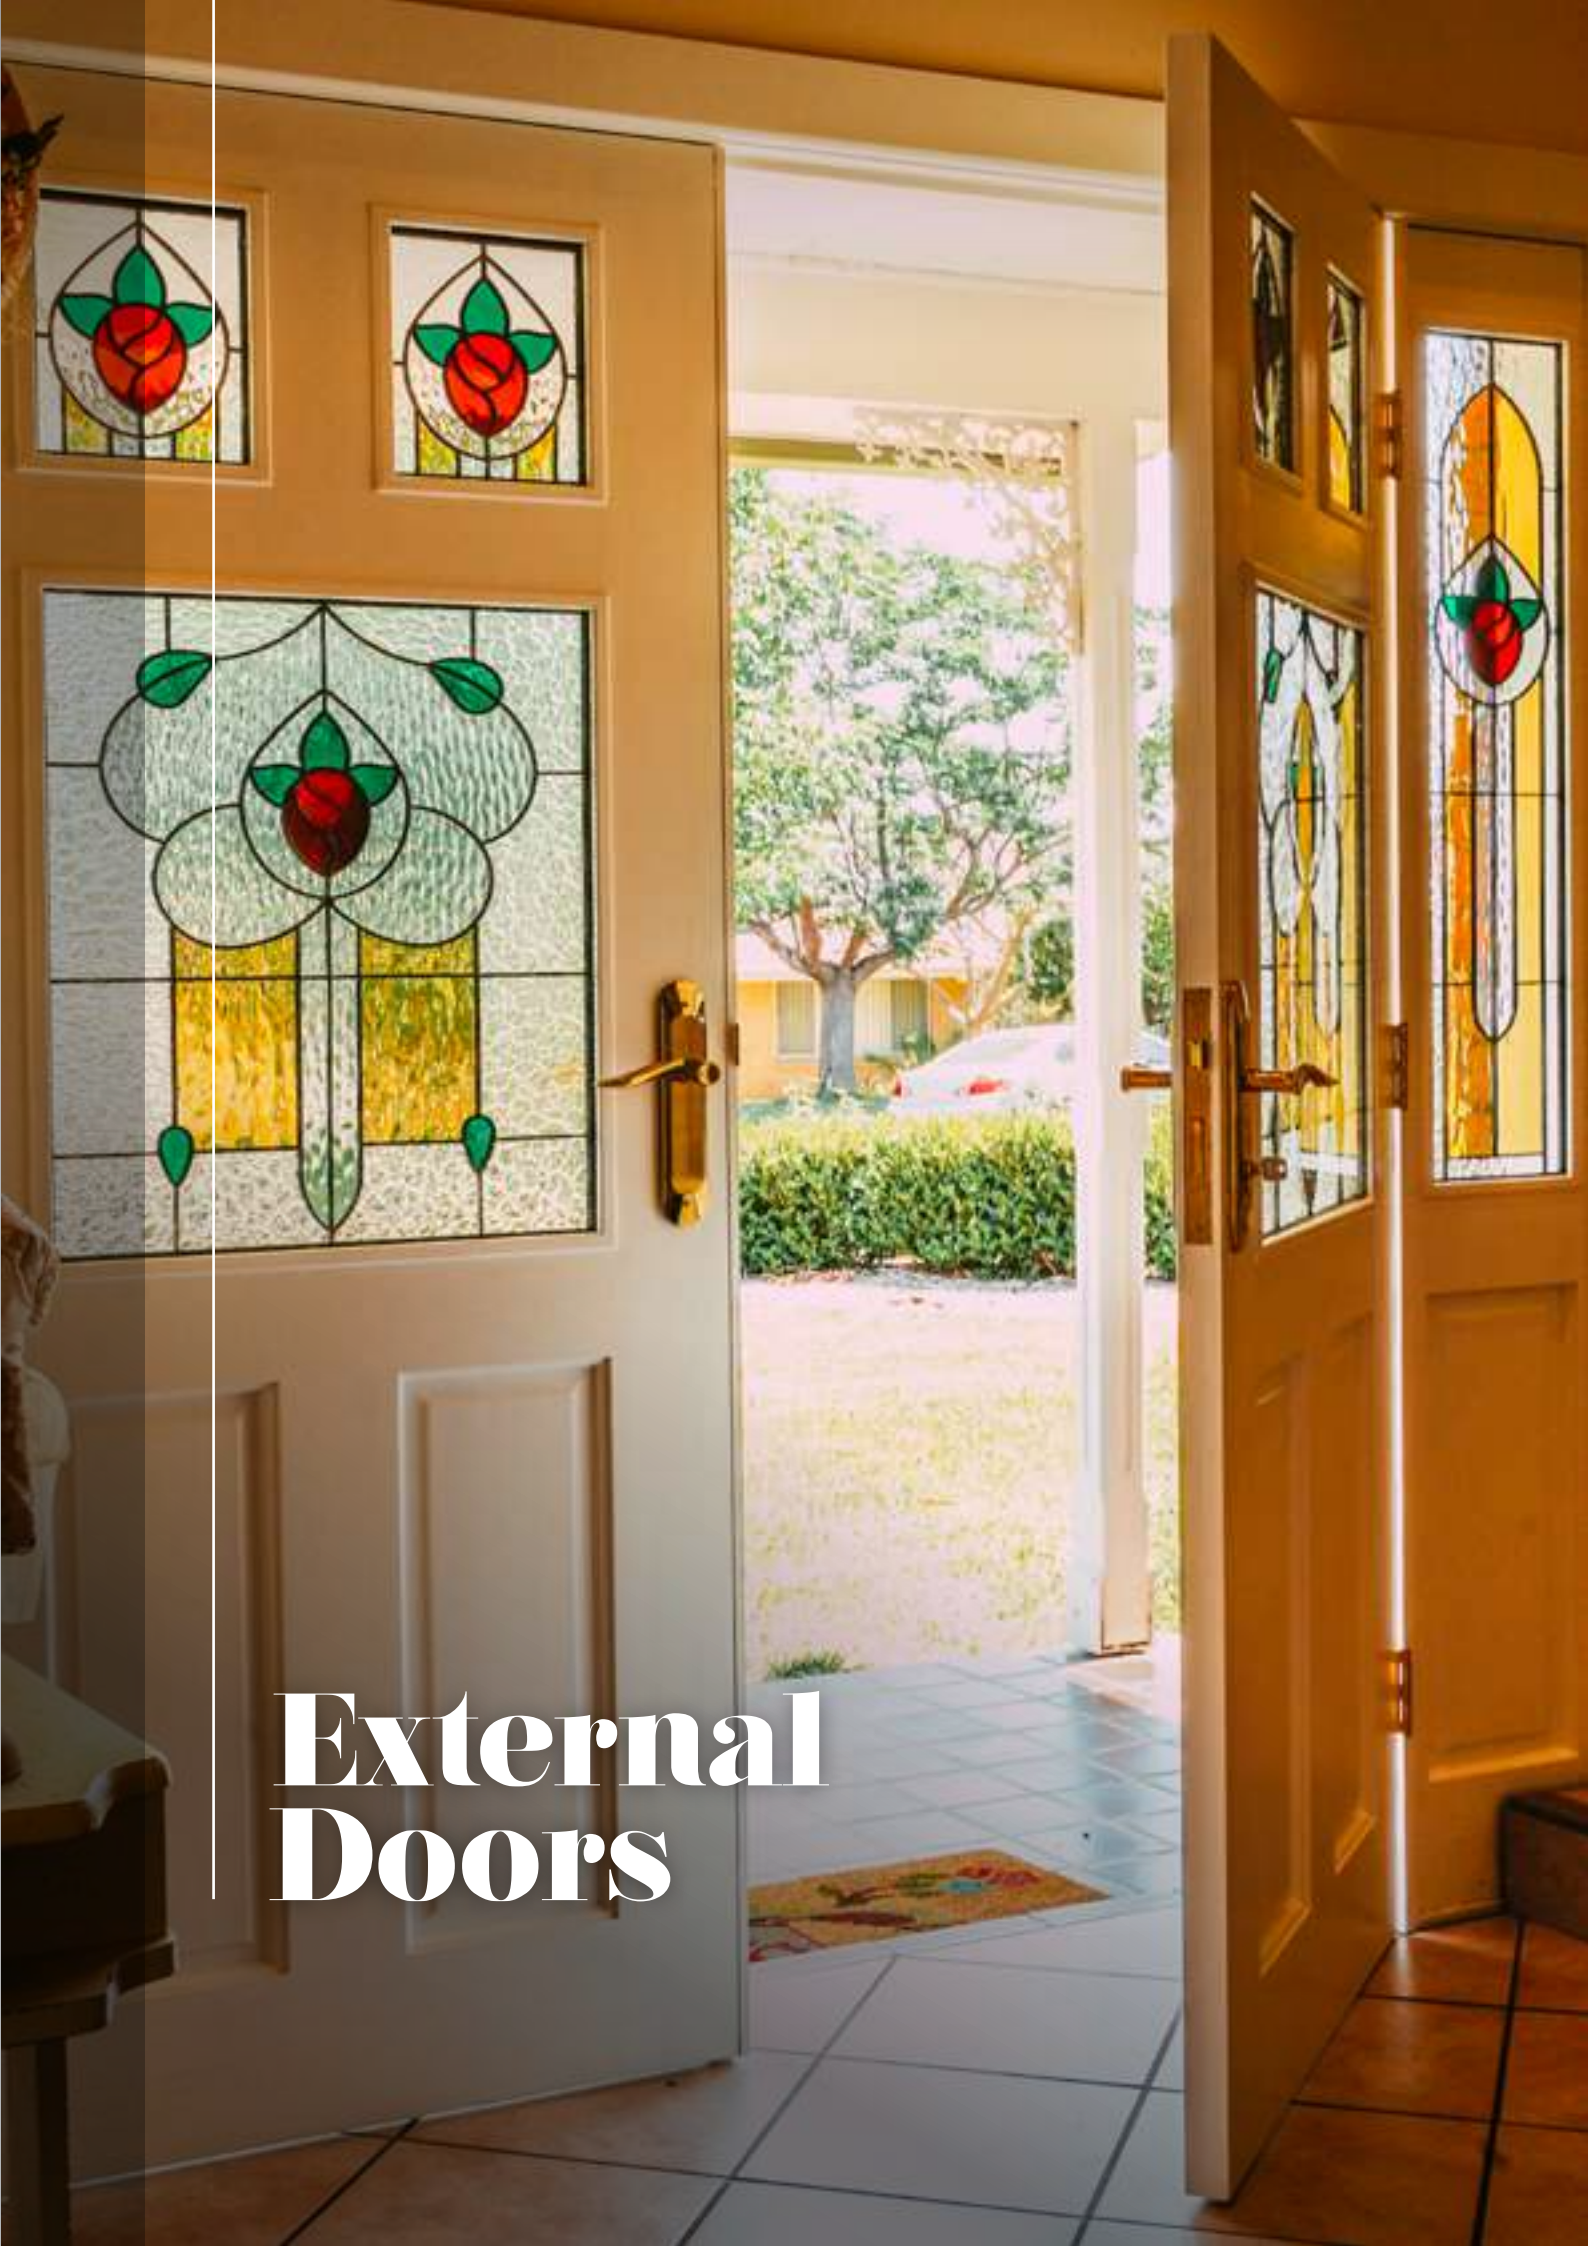

Our extensive collections of internal doors are designed to bring quality and style to every home. We have engineered timber options, lightweight and economical composite doors, contemporary aluminium styles, and plenty of glazing choices. Depending on your space and preferences, you can choose hinged, sliding, stacking or folding doors, and we offer a choice of paint or wood stain finishes so that your doors immediately look right at home.

Our stylish doors can stand out as a decorative feature in their own right, or function as discreet room dividers that slide away when you want to open up your space. Some of our ranges are fully finished and ready to install, and others can be custom made to your specifications.

DOOR FURNITURE AND ACCESSORIES

Doors Plus offers complete home renovation solution with the hardware to match and get the most out of your new doors. For both interior and exterior entryways, we offer a wide range of handle styles, designs and finish options, as well as smooth and stylish tracking systems for sliding doors. There's also a wide range of hinge styles and sizes, depending on both look and functionality, and we can provide all the jambs and dressing timbers you need to update the framework.

External Doors

For added personal character and a more traditional look, we also offer optional raised or cricket bat moulding.

Balmain

Our Balmain range of solid timber external doors provides a solution for front and back entrances, laundry or side door options. Crafted from rich Pacific Ash, our Balmain doors are both hard-wearing and refined.

You can even pair your Balmain doors with our complementary ranges of internal doors, for a consistent flow throughout your home.

Flinders

Flinders is a range of classic and durable external doors, designed for front and back entrances, laundry, side door or garage options.

Crafted from solid Pacific Ash timber, the Flinders range provides added security while bringing a traditional touch of elegance to the home. The combination of solid, high quality timber and strong, reinforced glass makes our Flinders doors a popular choice for their insulating properties and resilience. The small panes of glass allow light to filter into rooms and hallways.

Our Guardian 2-in-1 external doors are an innovation in screen door security and functionality.

Ideal for front and back entrances, laundry, garage and side door solutions, the revolutionary design offers an external door and screen door in one, combining security, convenience and flexibility.

From the inside, you can easily open the glass panel while keeping the door firmly locked and the screen in place — letting in the breeze, without the bugs and debris that can come along with it. From the outside, you have the convenience of having just one door to open when your hands are full.

The small panes of glass allow light to filter into rooms and hallways.

Blinds

Our aluminium folding, stacking and sliding doors have proven a popular choice because they offer the perfect combination of functionality and style.

The contemporary, sleek and minimalist look is unobtrusive and works in harmony with most home décor styles.

The large, double-glazed SafeGlass™ panels offer uninterrupted views of a patio or garden and fill the home with refreshing natural light.

With the unparalleled protection of an UltraSafe™ security screen door, you can safely leave your front or back door open to allow light and fresh air to circulate, with full confidence that your home is protected from unwanted visitors.

At Doors Plus, our goal is to design and create products that add to the safety and security of your home, and our UltraSafe™ security screen doors are designed to do just that.

NuBreeze
ALUMINIUM SCREEN DOORS

Screen doors are all about creating a safe, comfortable and secure living environment for you and your family.

Functionality and performance are key design points, but at Doors Plus we also consider convenience, flexibility and style to create a range of different solutions.

Our Nu Breeze range can be installed in single or double hinged options, while selected designs are available as a sliding screen, so you can use the sleek black handle to slide your doors smoothly to one side to open.

Internal Doors

Caulfield

Our Caulfield range of elegant internal doors is an ideal choice for bedrooms, bathrooms and hallways.

Beautifully crafted from solid Pacific Ash timber and finished with an optional dark maple stain or crisp white paint, the designs featured in the Caulfield range will give any home an instant lift.

NOVA

Our Nova range of internal doors is our most affordable range of high quality, fully finished doors for internal doorways, wardrobes and cupboards. Nova doors work as either hinged or sliding solutions, depending on the space and requirements.

Whether you want subtle, coordinated doors to connect living spaces, or sliding wardrobe doors that are fully finished and ready to fit, the Nova range is a solid choice. These doors are also available as a double set to fit a wider opening and make more of a statement, and you can combine up to four sliding panels for sleek wardrobe doors.

Kingston

The Kingston range is the ideal choice when you want solid, durable doors with a smooth finish that will be painted. The deep route designs have patterns that suit both traditional and modern décor.

This makes Kingston doors an excellent choice for bedrooms, hallways, living spaces and cupboards, as they are robust and help diffuse noise from travelling throughout the home. Pair them with similar external and internal bi-fold designs to create a seamless flow from outside to inside.

Bifold Internal Doors

Bi-fold doors are particularly effective in restricted spaces, where a hinged door would not be practical.

PICTON

Designed to give you ultimate flexibility in your living spaces, the Picton range works throughout your home, connecting living areas, bedrooms and bathrooms, or closing off cupboards and wardrobes.

They fold in the centre and slide away to one side, giving you full access to the opening when not in use. The Picton range is ideal for dividing up your living areas, for privacy or convenience, with the flexibility of being able to enjoy open plan living when it works for you.

FEATURES

Hinged only

Tracks & Fittings Included

Solid panel or glazed options (depending upon style)

Pre-primed, Painted White

This range works throughout the home, connecting living areas, hallways and bathrooms, or closing off cupboards and wardrobes.

Ashfield

Ashfield is a versatile range of bi-fold internal doors, crafted from solid Pacific Ash timber and designed to give our customers the ultimate flexibility in their living spaces.

There is a selection of designs to choose from, including both solid panels and glazed options, so you can assist our customers with deciding whether they want to fully close off certain areas or allow a continuous flow of light around their homes.

Bi-fold doors work particularly well in restricted spaces, where a hinged door would not be practical. They fold in the centre and slide away to one side, giving full access to the opening when not in use.

Raw, Stained Dark Maple,
Painted White

A woman with long dark hair, wearing a long-sleeved, tiered dress with a vibrant pink and purple floral pattern, stands in a modern interior. She is positioned in front of a large glass door or partition with dark frames. The room behind her appears to be a living area with dark wood flooring and a dark wall. The lighting is soft and even. The text "Zone Living" is overlaid in the bottom left corner in a white, serif font.

**Zone
Living**

Zone Living ... is Flexible Living

Open plan living is a great way to maximise space and allow for a natural flow of light and energy throughout a home. But what happens when the tv is on and a child is doing their home-work? Or when the heating is turned on for a cold winters day and it takes forever to get warm because the heater is attempting to heat the entire space instead of just one room?

Doors Plus ZoneLiving™ Systems give you the flexibility to create a more comfortable and functional home for your family's needs.

With a choice between bi-fold, sliding, stacking or hinged doors, each with glazing options to divide large open spaces into smaller functional zones so that they can be used more effectively.

A modern interior scene featuring a white-framed glass door with a grid pattern. The door is set against a dark grey wall. To the right of the door, a potted plant with large green leaves sits on a white surface. In the background, a television is visible on a white stand. The floor is made of light-colored wood.

Available in aluminium and timber options (Shaker Zone Living), we can install the doors in your house that are functional, amp up your space and suits your decor.
